6th April 2023

Dear Jessica,

Thank you for the opportunity to provide comments on these letters ahead of the CCFL47 meeting. Please see below comments from IFST relating to the Proposed Draft Guidelines on the use of technology to provide food information (Appendix II of CX/FL 23/47/7).

These guidelines appear to be well thought through and we agree with the clauses proposed for this meeting.

We hope that these comments are useful to the consultation.

Best regards

Stephen French, Ph.D
Scientific Policy Director, Institute of Food Science & Technology.
