

## Sustainability, Ethical, Environmental or Threat Management Roles

A mixed bag here. But important to include the non-traditional and emerging aspects of the Food Industry that Food Scientists (amongst others) may undertake for their first graduate roles.

Visit our case studies

### Typical Role Names

Sustainability Officer                      Food and Drink Risk Consultant  
Environmental Technologist  
Where 'Vulnerability' or 'TACCP/Threat' is in the role title

There are standards for the technical content of UK Food Sciences degrees; but there are more aspects you can develop to support success in the workplace. Industry have outlined what they think may be the most valuable additional skills, knowledge and behaviours for 14 typical graduate roles & this is one of them.

**So, what is desirable for a Sustainability, Environmental, Ethical or Threat Management Role?**

### Desirable Elements for this Role

Acceptance of Ambiguity	Environment and Sustainability
Application of IT	Listening
Collaboration	Open-Minded
Commercial Awareness	Resilience
Critical Thinking	Values and Credibility
Global Supply Chain	Verbal Communication
Handling Data	Written Communication
