

# Don't leave COVID-secure when you walk out the door

By following these simple steps:

Avoid car sharing – you **MUST** wear face coverings if you share cars with anyone outside of your household or bubble and have the windows down, clean the door handles inside and out

When queuing for buses, keep **2 metres away** from others whilst queuing or wear a face covering where it is crowded. On buses, **wear a face covering** and space apart from others.

If you use a smoking area, stay **2 metres away** from others and avoid facing other people

When socialising with others outside of your household, keep **2 metres away** from others, do not share items, wash hands regularly
